

## datango performance suite Tool Training Inhouse

You licensed the datango performance suite and want your authors to produce professional results.

You have to make sure that all authors use the correct method to record and create documentation and e-learning according to your guidelines.

The datango performance suite is easy to learn. If results are to be created at a high didactic level, a modular training for professional results is required.

### 1. Our training environment:

You study in groups of a maximum of 10 participants. Each participant works on his or her own notebook with access to the SAP – ECC6 IDES clients and the current Workforce performance suite which is connected to a manager.

### 2. Venues and languages

In the DACH region (Germany, Austria and Switzerland) the trainings take place in your company. The lessons are held in German on German-speaking systems. Please arrange an appointment with our sales department.

In all other European countries the trainings take place in your company. The lessons are held in the respective national language on systems in the relevant national language. Manager in English. Please arrange an appointment with our sales department.

### 3. Hotels and catering

The trainings are offered without accommodation and meals.

During the training breaks, coffee, tea and mineral water are served.

As a general rule, we reserve a quota of rooms in the conference hotels according to the number of participants in each class and try to negotiate special conditions, but we can give no guarantees.

### 4. Registration and payment

Registrations are made through our sales department. The terms of payment agreed with you shall apply.

### 5. Certification and certificate

The certifications are offered during the training period. In addition, there will be one Saturday per quarter in every European country where you will be able to participate in the certification. You need to register for certification. Point 4. applies here.
